PROFILE

Frontend Software Engineer with **3 years** of experience architecting, developing, and optimizing scalable web applications using **React.js**, **JavaScript (ES6+)**, and modern frontend ecosystems. Proven ability to **design reusable** component libraries, enhance performance, and ensure high code quality through testing and best practices. Experienced in **RESTful integrations**, **CI/CD pipelines**, and **Agile delivery models**. Adept at mentoring engineers, driving technical discussions, and collaborating cross-functionally to deliver high-impact user experiences.

EXPERIENCE

Proactive Data Systems

07/2023 – Present

- **Architected and developed** a scalable React-based Quotation System integrated with Zoho CRM, MUI, and AG-Grid, improving **data standardization by 60%**.
- **Engineered reusable component** libraries and custom hooks, enhancing code maintainability and reducing duplication across modules.
- **Built and optimized** a Delivery Management Portal integrated with **Business Central**, **reducing manual errors by 70%** via real-time data synchronization.
- **Designed and developed a Performance Management System (PMS)** integrated with sales dashboards and Zoho People, enabling goal tracking, KRA alignment, and real-time performance insights across teams.
- **Implemented** dynamic features in PMS including goal import, role-based access, rating workflows, and interactive data tables using React and **Redux**, improving performance visibility and user engagement.
- **Optimized** performant UI solutions for **Cisco Touch Panels using JavaScript/XML**, improving accessibility and usability for 100+ users.
- Led frontend development of a **Cisco Gold Audit-compliant analytics platform** using React, Ant Design, Tailwind CSS, and **RESTful APIs** (Meraki, Zoho Desk), achieving:
 1. **40% reduction** in reporting effort
 2. **30% faster** incident response time

Corestrat

01/2023 – 06/2023

- **Spearheaded development** of an E-learning Portal using React, improving onboarding speed by 50% and decreasing manager oversight by 35%.
- **Revamped** company website with a **modular design** and content-focused UX strategy, resulting in a 60% increase in engagement.

QUALIFICATIONS

- Christ (deemed to be University) July 2021 – July 2023
Master of Computer Applications (70.3%)
- Banasthali Vidyapith July 2018 – May 2021
Bachelor of Computer Applications (84.0%)

TECHNICAL SKILLS

- **Programming Language:** JavaScript (ES6+), Java, HTML5, CSS3, MySQL
- **Frameworks and Libraries:** React, Angular, Next.js, Redux, Node.js, Tailwind, Material UI, Bootstrap, ANTD, Chart.js, WebSocket, Socket.io, Flexbox, Webpack, Restful APIs, Recharts, Context API
- **Tools:** GitHub, GitLab, Figma, Postman, VS Code, Chrome DevTools, WordPress, CI/CD Pipelines
- **Practices:** Agile Development, Responsive Design
